

The [Kirklees](#) Council Community Response helpline is back to support local people during the next lockdown from Thursday 5th November. 📞

The community response team will work alongside local people and organisations to make sure that together we can all support our neighbours and communities over the coming weeks. We're working especially closely with local voluntary sector organisations through our partners at Volunteering Kirklees (part of Third Sector Leaders).

Anyone can let us know about the things they need help with, or that someone who they are concerned about might need help with- I.e loneliness, utility advice, benefit support, housing concerns or accessing food.

- Online forms: Covid-19 Community Response- Kirklees Council Website 🖥️
